Portfolio | *LinkedIn* | *GitHub*

Creative and results-driven ICT professional with a Diploma in Multimedia (2024) and currently pursuing an Advanced Diploma in ICT in Multimedia (2025). Specializing in front-end development and UI/UX design, with a strong ability to merge aesthetic design with functional digital performance. Adept at using modern web technologies, user research, and design thinking to deliver meaningful, user-focused digital experiences. Currently expanding expertise in backend development, AI integration, and software engineering to build complete, scalable web ecosystems.

EXPERIENCE

DIGITAL ASSOCIATE | DATA ENGINEER ASSOCIATE
CAPACITI | **2025** April - Present

- Developing a cross-functional skill set in AI & data engineering, while refining professional communication.
- Applying data-driven approaches to analyse, process, and visualize information in real-world project simulations.
- Building a foundation for integrating intelligent data workflows into digital product development and software solutions

WORK INTEGRATED LEARNING (WIL)
BIIC - PILLAR 5 GROUP| **2024** July - September

- Integrated academic learning with hands-on industry experience, focusing on design and digital solutions.
- Designed logos and visual identities for real-world projects, enhancing brand presence and aesthetic impact.

WEBSITE DEVELOPER INTERN
Kamikaze Innovations | **2024** February - July

- Designed and coded a fully responsive website from scratch, including logo, color palette, wireframes, and mockups.
- Delivered complete documentation: logbooks, reports, and style guide.
- Balanced visual aesthetics with functionality for a professional, user-focused result.
